ABOUT THE HOST

Barbara

I am a Superhost from Cape Town and I take my role very seriously – your comfort is my top priority. I've lived in Cape Town for many years, and can confidently say that I know my way around. Ask me for any advice on where to go and what to do, and I will gladly share some hidden gems with you.

I have also spent many nights away from home as a business traveller, so we have set up this apartment to make those business trips a little more comfortable. Allow me to make your next trip less stressful.

- Unfortunately, in South Africa currently we have periods of no electricity. It means, that the only parastatal power supplier switches off electricity for periods when the power grid is under strain.
- It is normally for a 2.5 hour period and advised before-hand. You can always enquire with reception or your Host or for convenience you can download the app called Eskom-SePush. You will need to select the area, Century City. This will indicate what "stage" of loadshedding we have and will dictate how many times a day we are affected and what times.
- The Wifi is on UPS, so should be available during loadshedding. We have also supplied a portable battery for electronics as well as battery operated lights.
- Some local coffee shops and restaurants have generators which means they can provide basic menu items and in some cases WiFi.

I cannot overstate how wonderful Barbara's place is. The apartment is spacious, beautifully decorated, equipped with all basic amenities and with a stunning view of the bay and table mountain. Sunsets are just marvelous! The building is well served and secure. You can walk to several restaurant and the grocery store. It is very easy too to hop into the highway. Barbara is one of the best Airbnb hosts that I ever had, very responsive and accommodating. I would not think twice to stay in her apartment next time.

Beautiful view of Cape Town and we live in the area. The photos on AirBNB do not do justice to the view.

Building is in an amazing location, for work or holiday. Security is amazing and helpful. Apartment is a great size for small family with everything you could need.

Barbara has been amazing throughout the stay and a pleasure to deal with.

Will be using this apartment for visiting family in the future for sure.

Apartment is amazing. Logistically perfect for me as it was a business trip and the office was based across the road. But really close proximity to everything. Breathtaking views.

Spotlessly clean!! Great communication. Very accomodating. Thank you again Barbara!!

Barbara's place was really perfect and we enjoyed it very much in this stylish and super equipped apartment. Communication with her was very nice.

The beds were very cozy and the kitchen was very well stocked even with dishwasher and washing machine.

The bathrooms were very tasteful.

The view from the living room and balcony to table mountain and the sea was fantastically beautiful!!

The apartment is very safe with doorman and 2 underground parking spaces for the car. wireless internet access also went well.

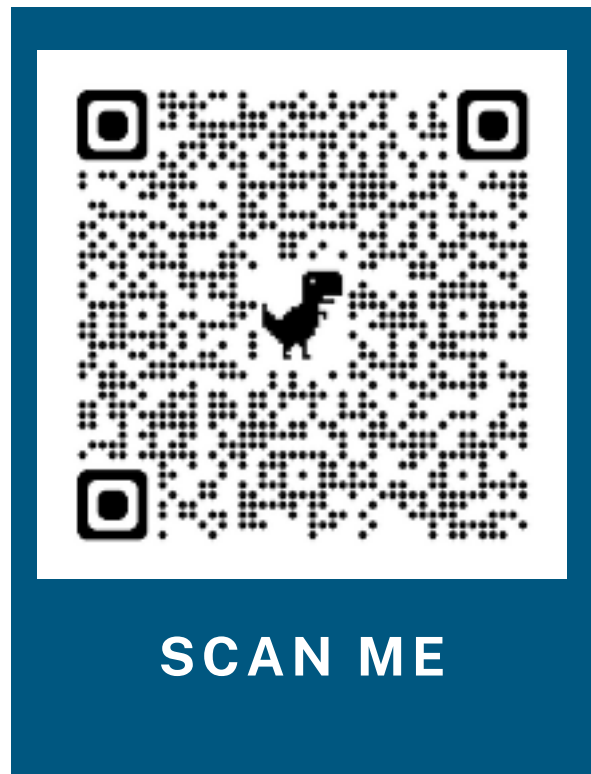

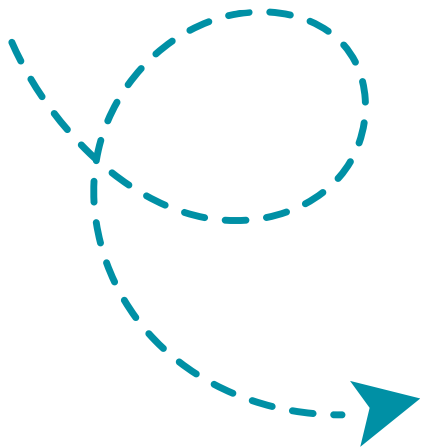

Thank you very much for everything Barbara, we will be very happy to come back next time!!!
